

We are committed to long-lasting quality and sustainable development. The origin of our products is fully traceable. Fair working conditions are an integral part of our company philosophy.

With the Ökoprofit project, we are continuously optimising our production and reducing our energy consumption. After all,

a company that has been successfully producing needles and hooks since 1829 knows that it's never too early to think about tomorrow.

Our philosophy is easy to explain. When our customers buy addi needles, they get the very best quality for maximum enjoyment of knitting.

» **Our location: Altena.** Here – and only here – have we been producing high-quality craft needles since 1829 with a workforce of around 100 people.

» **It takes up to 25 production steps** to manufacture our knitting needles and crochet hooks with lots of manual work and careful attention to detail. Our products are predominantly made from regionally sourced materials.

» **Quality and service** are our top priority. We are always there for our customers – for praise, criticism and a fair business relationship.

» **A family company** in two respects. The family-run business has entered its sixth generation of owner-management. And generations of many families work together at addi – grandmothers, daughters, partners and lots more.

» Our **Ökoprofit certification** speaks for itself. We have always been committed to the sustainable use of resources.

» **Special, protected and patented products with added value** – real innovations such as our Novel series with structure, very sharp crochet hook heads, wavy addiCraSySnake double-pointed needles and our addiCraSyTrios are more comfortable to use and offer genuine added value for even greater enjoyment of knitting, crocheting and winding.

addi[®]
MADE IN GERMANY

Made in Germany since 1829

Knitting needles and crochet hooks are our passion – and have been for generations.

100% Made in Germany from needle tips to cords – this applies to 96% of our range.

Genuine quality with a 10-year guarantee. Up to 25 manual production stages are involved in making each needle perfect.

At addi, we have been producing our knitting needles and crochet hooks in Altena (North Rhine-Westphalia) since 1829. Our certified family-run business is now in the hands of its sixth generation. "We are family" doesn't only apply to our management. At addi, generations of many families work together with passion.

Here, every needle tip passes through many hands until it is carefully packed and leaves our production department.

Our addi products

At addi, we have been producing our knitting needles and crochet hooks in Altena (North Rhine-Westphalia) since 1829. Our family-run business is in the hands of its sixth generation.

Transparency in packaging:

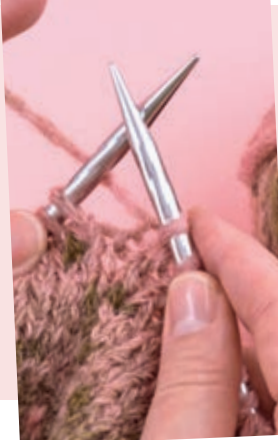

100% Made in Germany from needle tips to cords and handles. This applies to 96% of our range. Our packaging has clear information on materials and the production location so that you can always see what you're buying.

- » **100% Made in Germany:** refers to products whose materials and components are produced entirely in Germany.
- » **Made in Germany:** refers to products manufactured in Germany that contain elements from outside the region, e.g. bamboo, olive wood or amaranth wood.
- » **No reference:** products that we cannot produce ourselves and obtain from suppliers in other countries, e.g. accessories are purchased by us and packaged in Germany.

10-year guarantee

**Quality that lasts.
Trust that connects.**

We believe that good things last a long time – and we want you to feel that, too. That is why we guarantee our addi products for 10 years.

Knitting needles a full range

Perfect joins, flawless surfaces, flexible cords and smooth, light tips.

- » **Circular knitting needles**
- » **Double pointed needles**
- » **Straight knitting needles**
- » **addiClick**
- » **addiCraSyTrio**
- » **addiSockenwunder**

addiClick

Exchange interchangeable needle tips easily in two hand movements, all thanks to the unique click connection.

addiCraSyTrio Knitting small diameters is quicker and easier with the addiCraSyTrio flexible set of three knitting needles. Perfect for socks, cuffs, sleeves and much more.

Crochet hooks with special heads

Since 1829, addi has been manufacturing top quality crochet tools featuring heads with utility model protection. Particularly sharp and with an extra deep throat, the hooks make piercing and crocheting even easier.

- » **Crochet hooks**
- » **Tunisian crochet hooks**
- » **addiClick interchangeable crochet hook sets**

addiSwing The ergonomic design of the Swing hook takes the pressure off your hand, arm and shoulders.

addiNature The natural grain makes each crochet hook unique. They feel wonderful to hold with high-quality handles made of bamboo, olive wood, amaranth wood or walnut.

addiExpress Knitting machines

From hats, scarves and cardigans to cushion covers and i-cords – knitting is a piece of cake with the addiExpress, addiExpress Kingsize and addiEi knitting machines. Many instruction books provide ideas for items that can be conjured up with winding instead of knitting.

Accessories for knitting + crocheting

Lots of practical little helpers round off the addi range. From stitch stoppers, needle gauges, row counters and lint shavers to addi's cute heart-shaped thread guide rings.
